VACUUM TOILET

■ Characteristics

RUDOS RUŽOMBEROK, s.r.o. is exclusive distributor of GLOVA A/S vacuum toilets for Czech and Slovak railway market. In cooperation with GLOVA A/S, RUDOS is designing complete vacuum toilet system, involving toilet, clean and waste water piping, electronic management and also water and waste tanks according to customer's needs. Also service for whole system is provided. Bearing in mind customer's needs, we do hold almost 75% of spare parts on stock, leading to the fast and swift delivery of your spare parts.

■ Maintenance of vacuum toilet system:

Each toilet is equipped with own controller with touchscreen display which can access all control units of system. After removal of covering all toilet parts are easy to access and clean.
